Preparing
for the Future

is one of the most interesting subjects that
ever comes to ones mind. It requires much
faith and this faith is justified by the experience
of others. Faith in the worth while tasks yet
to be accomplished causes thousands of our
young men and women to go to college every
year. Faith in our homes and in our country
caused 1,000 of Gratiot county's boys and girls
to offer their all on the altar of patriotism a
little while ago. We want to keep faith with
them now by giving a living memorial in the
form of a Gymnasium and Auditorium to be
erected on the campus of Alma college. We
believe an investment in this memorial will
pay big dividends in the future. The soldiers
have been loyal to us. Lets show our appre-
ciation in this practical manner now.

The Coal Situation

The Railway Age an authori-
ty on transportation says:

"If present tendencies in the
production and transporta-
tion of coal are not speedily
changed, the American people
within a few months will be
confronted with the most ser-
ious danger of a coal famine
ever known.

"The main reason for this reduction, as
shown by the reports of the United
States Geological Survey, 'is no market.'
Consumers and dealers won't buy.

"The most varied and bitter experience
does not seem to teach the American
people anything regarding transporta-
tion matters."

*We should be pleased to talk with you re-
garding your coal supply for next season.*
